"No influence is so powerful as that of the mother." Sarah Josepha Hale

18" Block

Sarah's Story 1830-1850

Sarah was a poet, an author, and editor of Godey's Lady's Book for 40 years. It was in Godey's that the hexagon design first appeared in an American periodical in 1835. In her day, Sarah was the leading influencer of fashion and all matters concerning the keeping of a home. Everything from furnishings to cooking, sewing the latest fashions, hand-crafts, sheet music and more were part of each issue. Sarah advocated the values of education and women in the workforce, and Godey's published original works by American authors, including Sarah's poem "Mary Had a Little Lamb". She was largely responsible for President Lincoln proclaiming Thanksgiving a national holiday.

Where we love is home

18" Block

My childhood home was just down the road from the Sugar Creek, the namesake for the village of Sugarcreek, Ohio. It's a small town and one where many conversations begin with "Now, who are your mom and dad?", or "Aren't so-and-so your grandparents?" "Where did you say you went to church?" was another common question. It's the kind of place where the vegetable gardens are big, the farms are even bigger, and the hearts are the biggest of all.

It is always my hope that my fabrics bring warmth and joy to your soul and a smile to your face. I am very excited to introduce you to Sugarcreek...it's a little piece of my heart.

HOME

When I was a little girl, my Grandpa Bert had a farm that was the most magical place to me. While the old farmhouse was rather humble, it holds some of my favorite childhood memories. Being a lover of all things miniature, I was fascinated by the honey bees he kept. I imagined what a wonderful house I could make out of those beehives! There were so many places to play as a child and I was always tickled to find a bird's nest. On rare occasions, I could peek inside the nest and see tiny speckled eggs. When I think of the places that feel like home, the farm always comes to mind.
